

RD REPORT on the SS "Aigburth" ex "Yaederland"

It is submitted the Freeboards given on the accompanying form being those required by the Tables merit approval, subject to facilities being provided to enable the crew to pass to and from their quarters without descending into the well and to additional bolts being fitted to the steel plates at openings in Bridge front bulkhead so as to reduce the spacing of the bolts to not more than 6 inches apart and the bolts altered to pass through the bulkhead plating.
