Dear Sir,

" LUCITA "

With reference to the classification of the above vessel now running under an examined record valid for 12 months from August last, we have to advise you that due to the exigencies of our trade we shall require to operate her for a further period of 12 months in the U.K. coastal trade and in this connection shall esteem it a favour, also feel obliged if the Committee will give favourable consideration to allow us to submit her for a further extended General Examination at the next periodical overhaul which we anticipate will be carried out probably at Rotterdam towards the end of this month.

The Boiler Survey which becomes due next month will be dealt with concurrently with the drydocking and repairs, further the freeboard renewal survey will also be held, as the present certificate expires at the end of August.

Upon receipt of your advices the question of arranging for her to be withdrawn from service and placed in drydock for the necessary examination and repairs will be made.

Yours faithfully,

(Signed)

Manager, Technical Division.
