

AIR

6th September, 1948.

Dear Sir,

E.

"NOTRE DAME DE FRANCE" - No. 11438

I am in receipt of your letter of the 31st August, in further reference to the request made by the Owners of the above vessel that this Society should furnish them with a certificate stating the indicated horse-power of the engine, and in reply I have to inform you that, from the print forwarded with your letter of the 20th August it appears that the indicator diagrams are inaccurate. Accordingly, a certificate could not be issued in respect of an indicated horse-power based on these diagrams.

In order that the Committee may give full consideration to the matter, it is thought that the Owners should state more fully the reasons which have prompted them to ask for such a certificate, and I shall therefore be glad to hear from you on this point.

At the same time it is requested that you will make discreet enquiries and let me know whether, in the event of the Committee acceding to this request, there is any likelihood of the Society being involved in a law suit.

Yours faithfully,

R. A. Masset, Esq.,
BOULOGNE.

pro Secretary.
