Less
TWIN SCREW STEAMER "CAMERONIA" 16280 tons gross.

This vessel was built at Glasgow by Messrs. Beardmore & Co., and launched in December 1919.

The Rules admit of the date of build in this case being taken as late as 9 months after the date of launch.

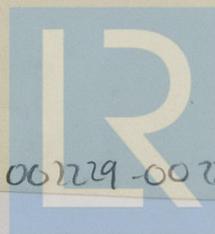

The date of the last Survey is March 1921.

The First Entry Report has been considered by the Glasgow Committee, and the vessel classed 100 A.1. "Shelter deck with Freeboard" and the date of build appears to be given as March 1921, that is 15 months after the date of launch.

It is submitted the Glasgow Office might be requested to state if the date of build has been specially considered in this case, and if there is any special reason for allowing 15 months for the completion as appears to have been done.
