QUESTION.

ANSWER.

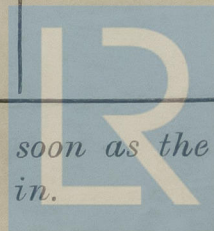

Mr. Moffatt in Hull Report No.41316 states that the engine stoke of the above vessel is 26 inches, whereas the registered figure as supplied by the Registrar General of Shipping is 27 inches, and I shall accordingly be glad if you will kindly ascertain and let me know which of the above dimensions is correct.

*CHH*

On looking into this matter it is found that the engine stroke of 26 inches as shewn on the first entry report is correct.
