

M.S. "KARABAGH"

Grk 19730

The construction of the machinery of this vessel was completed in 9,31, since which time the vessel has been laid up.

The Builders are now desirous of having the certificates of classification forwarded as soon as possible.

The Greenock Surveyors report having examined the machinery and electrical installation generally. Further, the vessel has been placed in dry dock and the screwshaft and sea connections examined. The donkey boilers and air receivers have also been opened up and examined internally and externally. The condition of the machinery is stated to be satisfactory, there being no signs of deterioration.

This case is analagous to that of the S.S. "ANLWCH ROSE", dealt with in endorsement dated 22.3.34., and in view of that and from the Surveyors' recommendations it is submitted the machinery of this vessel be classed with the record

+ LMC 4,34  
DBS 4,34-  
S (CL) 4,34  
~~+ NE 28.9.31~~

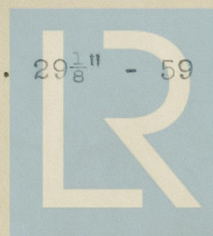

with the notation of "Special Surveys to date from 4,34"

It is concluded the electrical installation is in accordance with the requirements of the Rules, but this should be confirmed; also the report forwarded without delay.

NOTE. Oil Engines 4 S.C.S.A. 6 Cy. 29 $\frac{1}{8}$ " - 59 1/16"  
490 NHP 2 DB 150lb.

*Date of Build 9-31. }  
for cert.*
