

Received by Chief Ship Surveyor 31.12.14.

Received from Chief Ship Surveyor

VESSEL'S NAME Stl.S.S. "ARKLESIDE". Rpt. Mdb. No. 8780

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

(*The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement.—Extract from Sub-Committee's Report, 24/5/92.)

FIRST ENTRY.

Nature of Survey

It is submitted the Middlesbrough Surveyors should be requested to forward the approved plan of the raised quarter deck hatchway.

The Sunderland Surveyors should be informed that this vessel is to be fitted with her machinery at their port, and to complete the survey for classification the following requires to be done;-

Deck pumps to be tested (Downton to be tried from furthest suction), steam and hand steering gear and windlass to be tested, bilge suction pipes to be completed and casings to be riveted.

The Surveyors should be requested to give the case the necessary attention, and on completion of the work to their satisfaction, they should forward a report on form No.8 with a view to the classification of the vessel.
