The Secretary,

Reference

L O N D O N.

Sir,

I am in receipt of the Glassing Letter dated the 9th instant,, with reference to the new steamer "MORETON BAY", (Barrow Report No.1924), and in reply to the enquiries therein contained, I beg to state that a semi-box beam was fitted in the collision bulkhead, and a web frame was also fitted in the deep tank as indicated on the approved plans.

With regard to the ~~EF.W.~~ two F.W. tanks between the tunnels, the combined length is 50' 8" and the capacity 195 tons. Both the screw shafts are fitted with continuous liners. The omission of these items is regretted.

I am, Sir,

Yours faithfully..

Thomas S. Skube
