

## FREEBOARD REPORT on the Messers van der Grijssen &amp; Zonen No 577 M/S.

It is submitted the Freeboards given on the accompanying form being those required by the Tables merit approval, subject to the dimensions & particulars now supplied being verified on completion of the vessel.

The freeboards have been computed on an assumed corrected tonnage coefficient of .79, and are therefore subject to revision if necessary. In submitting their final report the surveyors should forward an estimate of the tonnage contained between the line <sup>of the top</sup> of the bottom longitudinal <sup>of the top of the</sup> frames and the tank top in machinery space, & ordinary floors forward, respectively. (See "Instructions to Exclusive Surveyors", Para. 268).

They should also supply an estimate of the under deck tonnage assuming the vessel to be fitted throughout with ordinary floors of rule height (30 inches) in conjunction with  $5\frac{1}{2}$ " side frames & the usual ceiling & sparring & rise of floor.
