

EXTRACT FROM MOBILE REPORT (8) No. 1296 on the Steamer
"W.W.MILLS" dated 16.11.35.

Dry cargo hatch, steel cover properly stiffened now fitted. The bulwarks have been opened for at least half the area of the exposed portion of the weather deck and rails fitted across openings. All air pipes and vents have wood plugs supplied and these plugs are chained to the air pipes. Freeboard markings cut in on vessel's sides in accordance with assignment letter of October 1st 1935 and verified. Verification forms in duplicate attached.
