Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

20th July, 1921.

Dear Sir,

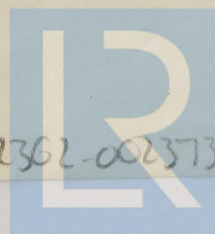

S. With reference to Glasgow Report No. 41214 on the Steamer "TIGER", it is concluded that the pillaring arrangements, spacing of transverses and transverse shell lugs clear of the oil tanks, and the thickness of the sheerstrake at the poop front are as approved; that all cargo tanks and oil fuel tanks have been tested as required and that eight bulkheads extend to the upper deck and six to the second deck as shewn on the plan of profile as built, but I shall be glad if you will kindly ascertain from the Surveyors and let me know whether this is so.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Secretary,
GLASGOW.
