

WOKINGHAM COPY.

25.2.41

Sirs,

With reference to your letter of the 15th instant respecting the steamer "BENGKALIS", I am directed to inform you that as pointed out in my letter of the instant addressed to you regarding a similar transfer of the steamers "SEMBILAN" and "SINALOER", the procedure in such cases would be for the vessel to be submitted for General Examination in lieu of Special Survey for the assignment of the special notation of '100A1, Class exemplated', with an 'Examined' date, renewable every twelve months. This General Examination would naturally be required to be held by the Society's Surveyors quite irrespective of any survey previously held by Surveyors of any other Institution but as any repairs then recommended would be limited to those required for twelve months' efficiency this should present no difficulty or duplication of work.

I am, Dear Sirs,

Yours faithfully,

Clerk to the
Classification Committee.
