

Steel Twin Screw Tanker "GEO.W. McKNIGHT", Messrs. Fried Krupp's  
Yard No. 517.

-----  
The equipment to be supplied to this vessel was  
approved on the 2nd. March 1931, this equipment being in accordance  
with the Owners' wishes and as required by the Germanischer Lloyd,  
with which Society the vessel is also to be classed.

From the First Entry Report now received it is seen  
that the collective weight of the three bower anchors and the  
stream anchor is 6 cwts. 2 qrs. 9 lbs. less than the weight  
approved, but that the chain cable supplied is 53 cwts. 1 qr. 25 lb.  
in excess of the weight approved.

In view of this, it is submitted that the equipment of  
anchors might be accepted.
