

Class is subject to the starboard main engine No. 2 crankpin being re-examined by 2.59.

4E

JUL 1960

Received by Chief Engineer Surveyor.....

Received from Chief Engineer Surveyor.....

SHIP'S NAME....."ARISTID".....REPORT.....HAM.....No. 9484.....

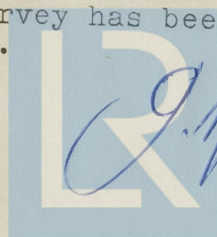

DBS due 3.58. Partly held now.

SRL.

The above item dealt with and the Surveyor recommends a further special examination of this item by the end of August, 1960 (3 months limit).

The Surveyor reports that a satisfactory general examination has now been carried out with a view to enabling the vessel to proceed on a voyage as an unclassified ship to Pireaus.

IT IS SUBMITTED that the machinery of this vessel is in an efficient condition to proceed as an unclassified ship on a voyage from Hamburg to Pireaus, and will be eligible for the record of DBS 5.60 when the survey has been completed as per this report subject as now amended.
