Dear Sir,

T/T "BANK" ex "RED BANK".

We are informed by the Owners of this ship that she is now sold to Italy for breaking up.

The Owners now request that the boiler survey which is due at the end of this month, may be postponed so that the ship can be delivered at Italy before the end of January, 1960 without carrying out a boiler survey.

The ship is lying in this district and has since November been used as a stationary power station and the Owners inform us that the boilers were completely overhauled beforehand.

The Secretary,  
London.

Yours faithfully  
THE SURVEYORS
