Dear Sirs,

F.T. Everard & Sons Ltd's Vessel 'Assiduity'

Engine No. 822.

Messrs. F.T. Everard & Sons inform us that you are asking for the torsional characteristics of the above vessel.

We would say that engine No. 822 is a replace engine being fitted into this vessel. It has been found necessary to fit new shafting, and we enclose drawings Nos. 13521 and 5945 showing the shafts fitted.

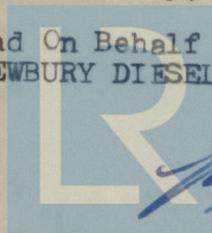

We also enclose sheet 5964E being the torsional characteristics of the installation as she will be.

We trust the matter is now in order.

Yours faithfully,

For and On Behalf of
THE NEWBURY DIESEL CO. LTD.

*It was confirmed by phone from
Mr. W. Betts that engine no. 822
was built under survey of Soc. Surveyors.*
