REPORTS

Ams.

No. 22220

marks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—(Extract from Sub-Committee's Report, 24/5/92.)

Drillings at ends to be made in the vicinity of the peak bulkheads.

A SPECIAL SURVEY (D) became due 2,58.
Postponement of Special Survey until 2,59 approved 3,58.
Special Survey commenced Pal. 2,58.

The AMSTERDAM Surveyors report (5,58), ship examined afloat and in dry dock and the Special Survey (D) advanced.

Repairs effected on account of contact damage.

The thicknesses of shell and deck plating as ascertained by drilling are as shown above and are considered satisfactory, except where recommended for renewal.

FOR PORTION OF SURVEY HELD:- See attached list.
IT IS SUBMITTED record of 'DS 5,58' be assigned as recommended, but further ACTION be DEFERRED for completion of the Special Survey.

DS 5,58

Lloyd's Register
S.S. PART HELD.

002536-002542-0191 X P.T.O. X

X The Amsterdam Surveyors should be requested to advise the Owners that keel plating amidships drilled and gauged 17½mm thick will require to be renewed and that the keel plating adjacent should, at the same time, be drilled and the Surveyors satisfy themselves that this is in order.

X *J. J. J.*
16/7/58
With regard to the deck drillings it is considered that the first strake inboard of the deck stringer plate frame 105 - 116 now gauged as 9 port and 8½ starboard, should be renewed. The remaining drillings are in order - Refer Ship Research Dept. Memo dated 18.8.58.
