

Motor Tanker "CAROLINE MAERSK".
Copenhagen Rpt. No. 11757.

IT IS SUBMITTED the Copenhagen Surveyors be informed it is noted that in forwarding the First Entry Rpt. on the above vessel they have enclosed a copy of the Society's letter to Messrs. Henry Hughes & Son Ltd., dated the 17th September, 1937 approving an arrangement for fitting transmitters and receivers for echo sounding devices in the cofferdams of vessels carrying petroleum in bulk.

In this connection their attention should be drawn to the fact that this arrangement is now obsolete and is superseded by the instructions contained in Circular No. 1808, dated the 13th February, 1944.

Three copies of this Circular, together with the Marconi Co's technical notes 21/43 and Hughes Echo Sounder Publication No. 53 should be forwarded for the future guidance of the Surveyors.
