High Close, Wokingham, Berks.

16th February, 1943.

HULL.

"EMPIRE OBERON" (51888)

I think it well to point out that on an N.H.P. of 177 the total machinery fees charged at Manchester and your port are £3 short of the Rule fee. The engine is, however, not an exact duplicate of that for the tug "EMPIRE TITAN" and it appears that the actual N.H.P. should be 185. It is therefore thought that unless there are definite reasons to the contrary an amended account should be rendered.
