LLOYD'S REGISTER OF SHIPPING,
GRIMSBY.

5th March, 1951.

Dear Sirs,

Salvage Vessel "FOREMOST 17"

An additional secondhand steam driven generator has been installed in the engine room (p.s.a.) of the above vessel.

A governor test under full load was found unsatisfactory as the "rise" was outside the limits permitted by Messrs. The Sperry Gyro Compass Co., Ltd.

The vessel is leaving Grimsby for Felixstowe in the morning, and arrangements have been made with the Makers, Messrs. W.H. Allen, Sons & Co., Ltd., Bedford, to have a Representative to meet the vessel on its arrival at that port.

We shall be glad if you will give this case your attention.

Yours faithfully,
The Surveyors,

Per:- (Sgd.) G.C. Vaux.
