

Classification B.C. Ship.

Howaldtswerke - Hamburg - Date of Build 1938

F.E.  
(fbd.)

Ship's Name S.S. "RHINELAND" ex "SCHWAN"

Report No.

W Deck 22'9" D to Main deck 15'1"

D for Scantlings 22'9" (Longt. Mat.)  
15'1" (framing)

This is a complete superstructure vessel with tonnage opening aft, and appears that the vessel has been converted in accordance with the British Corporation Rules and with approved plans.

The principal scantlings and arrangements have been examined and found in accordance with the British Corporation Rules and requirements equivalent thereto. It is therefore submitted that this vessel is able to be classed BS with the notation "Ice Strengthening".

The freeboard has been assigned by the London Office and particulars insertion in the classification certificate may be obtained there.
