

10th September, 1948.

Dear Sirs,

H. I duly received your memorandum of the 3rd instant respecting the Steamer "NIKOBAR", and with regard thereto have to inform you that the Committee are agreeable to the Owners' proposal to carry out the requisite General Examination and the survey of the water tube boilers on the vessel's arrival at a Danish port at the beginning of 1949.

It is considered that the conditions of the General Examination required in this case will be met if a Condition Survey is held and particular attention is given to those items outstanding for Special Survey. At the same time the opportunity could be taken to credit such parts as might be examined towards the advancement of the Special Survey, full details of these items to be furnished in the Surveyors' report. I shall be glad if you will inform the Owners accordingly.

Yours faithfully,

The Surveyors,
COPENHAGEN.

Clerk to the
Classification Committee.
