

POSTPONED SURVEYS.

Case of the S.S. "NIKOBAR".

No. 69490 in Reg. Bk. tons, Built

Classed Owners

Port of Registry

Classification Survey partly held.

Survey Due Validity of notation of "Examined 4.47 expired 4.48.
Water tube Boiler Survey due 4.48.

This case is being dealt with under the arrangements for provisional
classes set out in the Secretary's letter of the 23rd May, 1946. Full
classification cannot be assigned until the Special Survey is completed. It
has been suggested to the Owners that the present provisional class may be
continued provided the vessel be generally examined for an interim
"examined" record.

In reply to enquiry the Copenhagen Surveyors state they have been
informed by the Owners that the boilers were surveyed by the American
Bureau of Shipping at Kiel in February last. It is added, however, that the
vessel is due to arrive at a Danish port in the beginning of 1949 and the
Owners will then arrange for the survey of the boilers and General
Classification.

*Submitted that provided a condition survey is held
and particular attention is given to those items
outstanding for Special Survey the proposal merits approval.*

The Surveyors should furnish full particulars of

Committee's Minute

*any items that could be credited towards the advancement
of the Special Survey.*
