Dear Sir,

In reply to your letter of the 8th inst. we regret to say that the instructions sent by the Owners to their Superintendent at Kiel, only arrived the day before the vessel was undocked, and in consequence the only part of the survey possible was the examination and verification with Certificates of the anchors and chain cable, also the examination of the hull generally, after completion of docking repairs, and a report upon these will be forwarded in the near future.

We are, dear Sir,
