2nd December, 1960.

ssn. (H)

Dear Sirs,

m.s. "ADNA"

With reference to my letter of the 19th August last addressed to the Owners through your port, a copy of which was forwarded to you, and your reply dated the 29th August last, I shall be glad to learn, as soon as possible, what is the present position regarding the supply of a bower anchor of Rule weight and test and fifteen fathoms of chain cable at the earliest opportunity.

The Auxiliary Boiler Survey will become due at the end of February, 1961 and it will be appreciated if you will advise the Owners accordingly.

I would add that the machinery class is at present continued subject to the main engine driven lubricating oil pump casting being examined and No.4 main engine cylinder cover being re-examined by the end of next February.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
OSLO.
