Dear Sirs,

AB

Motorship "CLAVELIA"

This ship was under survey at Hull last month, when the equipment was found to be deficient of a bower anchor and 15 fathoms of chain cable.

It is recommended, however, that a bower anchor and 15 fathoms of chain cable should be supplied at the earliest opportunity, and the Committee have continued the class subject, inter alia, to these items of equipment being supplied to the ship. I shall be glad to learn what arrangements you propose to make in this respect.

Yours faithfully,

c.c. ROT.

Deputy Clerk to the
Classification Committee.
