

T.S.S. "Frasca"

Ant. 14549.

It is submitted the Antwerp Surveyors be informed that it is noted that in this case the boiler test certificate number is 131. 19/8/26. F.L.R. whereas in their reports Nos 14161 to 14164 the certificate numbers are given as 2349 to 2352. & they should be requested to state why the difference is so great in these cases, particularly as the lesser number is given after the greater numbers.

This information is required as a record is kept in this office of the numbers of all boilers made under survey.
