4-10-30C.P. 10-20W. candle power requiring a total current of

S.S. "Dakarian"

Gls. 41501.

The Glasgow Surveyors state that the generators of the electrical installation were found unsatisfactory. The vessel has now sailed, but on return to a home port the governors will be replaced and the generators re-tested.

It is submitted action be deferred in the meantime.
