

REPORT OF SURVEY FOR REPAIRS, &c., OF ENGINES AND BOILERS

(Received at London Office

119 MAY 1958
MONTREAL

Date of writing Report April 21st 19 58 When handed in at Local Office Port of MONTREAL
No in Reg. Book. Survey held at Prescott, Ont. Date. First Survey 12-12-57 Last Survey April 16th 19 58
(No. of Visits THREE)

10868 on the Machinery of the ~~WOODHOPPER~~ Steel "FRANK H. BROWN"

Tonnage { Gross 1902 Vessel built at Londonderry By whom North of Ireland S.B. Company Limited Year. 1924 Month. 7
Net 1126 Engines made at Grk. By whom J. G. Kincaid & Company Ltd. When 1924
Nominal Horse Power { Boilers, when made (Main) 1924 (Donkey)
No. of Main Boilers 2 SB Owners Colonial Steamships Limited Owners' Address
No. of Donkey Boilers Managers R. Scott Misener Port Montreal Voyage
Steam Pressure— If Surveyed Afloat or in Dry Dock Afloat
in Main Boilers 180 lb. (State name of Dock.)

Particulars of Classification (which must be inserted precisely as in Register Book & Supplements).

CHARACTER. * for Special Survey. Date of last Survey and of Periodical Surveys.	Years assigned now expired.	Machinery and Boiler Surveys (including date of N.B., if any)
BS* Great Lakes and Gulf of St. Lawrence service	1,55	MBS* 4,55 MBS, 2,57 TS(CL) 1,55
Lake S.S.	4,55	SPS 12,56
A.S.	4,57	

Last Report No. Port MBS & Pt. M.
Particulars of Examination and Repairs (if any)

(Periodical surveys, when held, must be reported in detail and seriatim in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be briefly summarised at the end of the report. State also the dates and initials of any letters respecting this case.

In damage cases where the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose, and why they were declined.

Was a damage report made by anyone else? If so, by whom?

Did the Surveyor personally go inside each Main Boiler separately and make a through examination at this time? Yes

Did the Surveyor personally go inside each Donkey Boiler separately and make a through examination at this time? Yes

If not, state for what reasons. What parts of the Boilers could not be thus thoroughly examined?

What special means, in the absence of internal examination, were adopted by the Surveyor to assure himself of the thorough efficiency of those parts of each Boiler?

State latest date of internal examination of each boiler Port 17th Dec. 1957 Stbd. 12th Dec. 1957 Present condition of funnel(s) Good

Did the Surveyor examine the Safety Valves of the Main Boilers? Yes To what pressure were they afterwards adjusted under steam? 180 lb.

Did the Surveyor examine the Safety Valves of the Donkey Boilers? To what pressure were they afterwards adjusted under steam?

Did the Surveyor examine all the manholes, doors and their fastenings of the Main Boilers? Yes, and of the Donkey Boilers?

Did the Surveyor examine the drain plugs of the Main Boilers? Yes, and of the Donkey Boilers?

Did the Surveyor examine all the mountings of the Main Boilers? Yes, and of the Donkey Boilers?

Has the screw shaft now been drawn and examined? Has it a continuous liner? Is an approved oil retaining appliance fitted at the after end?

Has shaft now been changed? If so, state reasons. Has the shaft now fitted been previously used? Has it a continuous liner?

Is an approved oil retaining appliance fitted at the after end? State date of examination of Screw Shaft. State the wear down in the stern bush. Is electric light and/or power fitted? If so, did the Surveyor examine the generators, motors, switchgear cables and fuses?

Has the insulation resistance of the generators, circuits and apparatus been tested and found to be not less than 100,000 ohms?

Engine parts, when referred to by numbers, should be counted from forward. Auxiliary machinery should be referred to by position in Machinery Space.

If the Survey is not complete, state what arrangements have been made for its completion and what remains to be done.

NOW DONE FOR BOILER SURVEY:- The Port and Starboard boilers examined internally and externally together with mountings and found or placed in good condition. The boilers afterwards examined under steam and the safety valves subsequently adjusted by a Canadian Government Steamship Inspector.

MACHINERY SURVEY:- The following machinery opened up, examined and found or placed in good condition:-
All crankshaft journals and main bearings.
Steering engine.
Windlass.

General Observations, Opinion, and Recommendation:-

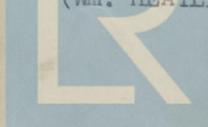

(State clearly what alteration, if any, is suggested to be made in the existing classification of the vessel's machinery in the Register Book, consequent upon this survey, and also any alteration required to be made in the records of the vessel's machinery, boilers, working pressures, &c.; thus, for example, BS 0,11, B&MS 0,11, LMC 0,11 or LMC 140 lb., FD, &c.)

This vessel's machinery so far as now seen, is eligible in my opinion to remain as classed with fresh record of MBS 2,58

Survey Fee (per Section 23) MBS & Pt. M. £ \$ 85.00
Special Damage or Repair Fee (if any) £
Travelling expenses (if chargeable) £ \$ 30.00

Fees applied for MAY 1 1958
