communications to be addressed to
THE SURVEYORS.

Dear Sir,

S.

With reference to your classing letter of the 18th instant respecting the motor vessel "NEDERLAND", Rotterdam report No. 25678, I beg to state that the steam from the higher pressure boiler cannot enter the lower pressure boiler, also that the safety valves on the higher pressure boiler are of the improved high lift type and that riveted washers are fitted on the end plates in way of the longitudinal stays.

As regards the last paragraph I may state that the dynamo test sheets were attached to the first entry report.

I am, Dear Sir,

Yours faithfully,

The Secretary,

London.
