EXAMINATION AND REPAIRS AS PER RULE FOR Docking and special Survey.

This ship was placed on the slipway and examined

At this time the renewal of four keel plates and the complete lower chine plates port and starboard was recommended.

It was stated the ship would be laid up until a slipway was available for sufficient time to effect the repairs.

This did not materialise.

It is now stated the M.V. "FIXITY" has been towed this day 6th January, 1961 to Messrs. T. Ward Ltd., Thurrock, to be broken up for scrap metal.
