

BY AIRMAIL

25th March, 1958.

DNEY

688, 723, 30, 33, 52, 53, 56, 57,  
As recommended.

C.30764, 66, 67, 69, 72 - As recommended.

710 "CARADALE" As recommended. It is concluded the peak tanks  
re examined internally at this time and that the port boiler  
rt combustion chamber seam has been dealt with as recommended  
the Newcastle, N.S.W., Surveyor, but I shall be glad to receive  
mfirmation on this point.

Postponement of the Special Survey until November, 1958, has  
been approved at this time, and I shall be glad if you will advise  
the Owners accordingly.
