Classen(S)
RNC

Dear Sirs,

Steamer "EL GAMIL"

I duly received your letter of the 25th March and, in reply to your enquiry, would inform you that this vessel's class was reinstated in February, 1960, as the result of a complete Special Survey in accordance with the Rules of the Society for a vessel of this age. The date of Special Survey assigned at the time was SS 3.58, this survey having been held partly at Venice and, later, partly at Genoa, with completion of the Machinery Survey at Suez in November, 1959. The Society's Representative at Suez at the time was Mr. G. Friman.

With regard to the vessel's carrying capacity, I would inform you that there is no information available here beyond the deadweight tonnage of 2115 appearing in the Society's Register Book which, you should appreciate, is recorded on information received from the Owners.

Yours faithfully,

c.c.Alx.

Clerk to the
Classification Committee.
