

"CABO TORINANA"

This ship was built 1903-11 and then classed *100A1 "Awning Deck with freeboard".

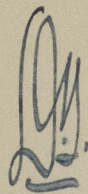

The class was expunged with a red line in 1940.

The requirements of a Reclassification Survey are presently being carried out in Spain.

The equipment letter according to the present Rules is "p", and the Bilbao Surveyors were so informed in our letter dated 6.5.52.

In a letter of 17.4.53 the Bilbao Surveyors advise that the equipment now on board is in accordance with the equipment letter "o", and to this numeral the equipment was originally supplied and since maintained. This is confirmed from the First Entry and subsequent reports.

In view of the foregoing, and provided the arrangements of the ship are as built, IT IS SUBMITTED the equipment in accordance with the equipment letter "o" be accepted in this instance, and the Owners, through the Surveyors, advised accordingly.

24.4.53.
