Dear Sir,

We write to report that the "ILHA GRANDE", ref:- Rio Rpt. No.8110, has become a total loss having struck a reef off the Northern Brazilian Coast earlier this month, and no doubt you will be advising the R.B. Publications department.

We also have to report delay in the arrival of the Motorship "CABO ORANGE", ref:- your letter of the 19th. February, but she is now expected at this port on the 30th. instant, when the Donkey Boiler Survey will be held.

With reference to previous correspondence on the Motor Tanker "GOIANIA", the Owners have now informed us that she is carrying out repairs at Santos, prior to coming to Rio for her drydocking, and they have, again, promised to complete the few items for completion of the C.S. cycle at that port. We are advising the Santos Surveyor accordingly. The ship will leave Santos for Rio within the next 7 days.

Yours faithfully,

E. Harvey
For the Surveyors.

The Secretary,
LONDON.
