31st March, 1921.

Dear Sir,

With reference to Greenock Report No. 17786 on the Steamer "GOBEO", it is concluded that the bridge deck plating is increased in thickness and a web fitted on frame No. 35 as approved, that the number of web frames in the machinery space and the extent of the treble rivetted butts of the upper deck stringer plate are as approved and found as stated, but I shall be glad if you will ascertain from the Surveyors and let me know whether this is so.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Secretary.

GLASGOW.
