

"BROWNS BAY".

This case has been discussed with the Chairman and the Treasurer.

The Owners' request that the class be reinstated on the understanding that the fees will be paid immediately on the sale of the vessel cannot be agreed to.

If the Owners consented in writing the prospective purchasers could view the Surveyors' reports and so satisfy themselves that, so far as classification is concerned, everything is in order.

The non-compliance with the Rules in this case is solely the non-payment of the fees for the re-classification survey, and if the purchasers were to pay these fees the class would at once be reinstated.
