16th May, 1960.

Dear Sirs,

S.S. "DIMOS"

assn. (H)

With reference to the classification of this ship in the Society's Register Book, I would point out that the Special Survey becomes due at the end of June next and I shall be glad to learn what arrangements are proposed for this inspection to be carried out.

As a result of an inspection carried out in drydock at Colombo last February, the Surveyors recommended that set up shell plates C.9 & 10, D.9 & 11, F.4 & 15 and G.4 (port side); A.11, 13 & 15, B.9, 11, 12, & 13, C.11, 13, & 14, D.7 & 9 (starboard side) and structure in way; also No. 5 hold forward longitudinal bulkhead and stiffeners etc. and No. 2 DB tank top plating (fractured) should be specially examined and dealt with as necessary by June, 1960, and your intentions regarding these items would also be appreciated.

I take this opportunity of reminding you that the Main Boiler Survey becomes due at the end of July next.

Yours faithfully,

Clerk to the
Classification Committee.
