OUR REF. GM/IR.
YOUR REF.

The Secretary,
Lloyd's Register of Shipping,
71 Fenchurch Street. E.C.3.

Dear Sir,

Jordsdale
S/S "SUPERHEAT" - Superheat.

We have been instructed by the Owners to fit Superheat to the above Vessel, and plans are being prepared which will be submitted to you in due course.

We propose using triple valve chests fitted direct to the boiler shell in place of existing main stop valves, and the Owners' Superintendent instructs us to ask for your confirmation that this fitting is in every way satisfactory.

Owing to the short time available we shall be grateful if you could give us this confirmation before the plans are prepared for submission to you.

It is proposed to superheat the steam to 625°F. at the boiler stop valve.

Yours faithfully,

Lloyd's Register of Shipping
Foundation
