OYD'S REGISTER OF SHIPPING

UNITED WITH THE BRITISH CORPORATION REGISTER

No. 3571

H A M B U R G ,

Port

8th December, 1953.

This is to Certify that
W. A c k e r m a n n

the undersigned Surveyor to this Society did at the request of
Schiffswerft Wilhelm Holst, Hamburg-Neuenfelde, attend on board
the M.V. "TEXITA" (Yard No. 187), on the 18th November, 1953,
for the purpose of examining and testing

TWO SETS OF DAVITS

made to their order at the works of Messrs. C. Herrmann, Bremerhaven.

The davits are made in accordance with the approved plan.

The material used in the construction of the davits is tested
S.M. steel and the electric welding has been carried out with
covered electrodes of approved type.

On completion the davit arms, completely built together with
their frames, were subjected to a load of 1525 kgs according
to specification.

The deflection of the davits at full load was about 20 mm and,
after releasing the load, the davits came back to zero without
deformation.

The davits were examined and hammer tested on completion and
found satisfactory.

For identification purposes these davits have been marked
as follows: -

LLOYD'S HAM. 3571

1525 kgs

11,53 W.A.

W. Ackermann

Surveyor to Lloyd's Register
of Shipping.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances
to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of
its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
