The Secretary,
Lloyd's Register of Shipping, 19th November, 1947.
71, Fenchurch Street, E.C.3.

Dear Sir,

S.S. "TENAGODUS".

We are in receipt of your letter of the 14th instant reference S, with reference to equipment of anchors and cables on the above ship and contents have been duly noted.

We are arranging for the cable equipment on all these vessels to be brought up to Rule Requirements as opportunity offers but would point out in view of the present difficulty in regard to delivery of cables some time may elapse before the additional equipment is placed on board. You can rest assured, however, that the matter will be pressed with the makers and every effort will be made to bring these ships to full requirements at the earliest opportunity.

Yours faithfully,
(Sgd).
