ANSD.....

Dear Sir,

T.E.S. "THEOBALDIUS"

With reference to classification of the above vessel we have to advise you that tentative arrangements have been made for her to drydock and repair on the Tyne where she is due about the 6th proximo. As you are aware the machinery survey has still to be completed, and in this connection we are arranging for as much of the outstanding items of this survey to be carried out as can be dealt with within the time required for periodical drydocking and repairs. The completion of the survey will then be dealt with at the subsequent drydocking. We trust that under the circumstances also in view of the fact that the ship's services are urgently required you will be agreeable to this proposal.

To enable us to advise our Superintendent of all outstanding requirements of machinery survey we shall be obliged if you will inform us of same at your early convenience.

Yours faithfully,
THE ANGLO-SAXON PETROLEUM COMPANY, LIMITED.

Shogah
Manager, Technical Division.
