12th March, 1938.

Dear Sirs,

I have to inform you that the s.s. "REBECA", the Furness Shipbuilding Co.'s No. 277, has proceeded to your port with a view to the installation of the machinery.

To complete the survey on the hull the following remains to be done:-

Poop and forecastle decks to be hose tested, steam and combined steering gears, auxiliary steering gear and steam windlass to be examined under working conditions, engine and boiler casings to be completed.

I shall therefore be glad if you will be good enough to give the necessary attention, and, on completion of the work to forward a report on form No. 8 with a view to the classification of the vessel.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
WEST HARTLEPOOL.

Secretary.
