

22nd January, 1952.

NEWCASTLE-ON-TYNE

108961, 9014, 022. As recommended.

109007 "BRITISH INTEGRITY" As recommended. I acknowledge the receipt of your letter of the 21st ultimo, the contents of which are noted.

109051 "CHAKRATA" This vessel's refrigerating machinery has to-day been classed \*Lloyd's RMC 12,51 "to maintain temp. -5°F in No.4

upper tween deck centre aft chamber and 15°F in all other spaces with sea temp. 85°F max". I shall be glad if you will forward the refrigerated fan motor test certificates for this case, and for the Sister vessel "CHAKDINA".

109013 "ASSIMINA K". As recommended. It is concluded in view of your recommendations that the stiffening, previously fitted to the bottom shell plating, was examined and found to continue satisfactory but I shall be glad if you will confirm this. I have to add that the Committee are taking a keen interest in this case and its developments.
