Reference

Dear Sir,

The Owners of the S.S. "CITY OF DIEPPE", No.74054 in the Register Book have requested the Contractors, Messrs. Cammell Laird & Co.Ltd., to fit the forward insulated 'tween deck space as a gas-tight chamber, and I beg to submit, for the favourable consideration of the Committee, plan (in duplicate) shewing the proposed method of dealing with the ship's side framing.

I might add that the sample of this has been constructed in the Yard of Messrs.Cammell Laird & Co.Ltd., and the structure stood an air pressure of 85 lbs per sq. inch, without leakage.

This matter is stated to be very urgent, and early approval is requested.

I am, Dear Sir,

Yours faithfully,

The Secretary.

LIVERPOOL.

S. This is an amended arrangement to the plan approved on 19.7.34. which is forwarded herewith.
