

"ENFORCER".

Rpt.Hul.No.52672.

X It is submitted before this case receives consideration the Surveyors be requested to forward the approved plan of the sternframe and a sketch on which should be indicated the alteration and extent of <sup>the</sup> electric welding repair effected in way of the rudder post.

In view of the above work having been carried out several months before the completion of the vessel they should be referred to page 10, paragraph 10 of the Instructions to Exclusive Surveyors and requested to state the reason for omitting their recommendation for special examination of the sternframe at the next dry docking from their First Entry Report and Interim Certificate and for reporting the matter on a separate Rpt.8.
