

URGENT

"BRITISH YEOMAN"

The year of grace for the Special Survey expires at the end of this month and the Load Line certificate has just been extended until the end of April at Grangemouth. The ship is now at Copenhagen and the Owners are being pressed to allow her to undertake one further voyage which will delay her return to the U.K. until about the 10th/12th May when she would be submitted to Special Survey.

In the circumstances, the Owners ask to be allowed this short extension and for instructions regarding the Load Line certificate to be sent immediately to Copenhagen.
