18th January, 1957.

Dear Sirs,

Motorship "INVERBANK"

ssn (S)

The Society's Surveyors at Hong Kong have reported that this ship was under survey in December, when Metalock repairs were carried out to the No. 5 unit of the port main engine.

It was recommended, however, that the No. 5 cylinder jacket of the port main engine, be specially examined and dealt with as necessary by the end of June, 1957, and the Committee have continued the class subject to this matter receiving attention by that time.

I take the opportunity to inform you that a Donkey Boiler Survey will become due at the end of April, 1957.

Yours faithfully,

Assistant Clerk to the
Classification Committee.
