For serv.on the Rivers  
Parana & Paraguay

-----

The Screwshaft survey became due in June last.  
In reply to enquiry the Society's Surveyors at  
Buenos Aires write that the Owners state they do not desire  
to retain this vessel's classification with the Society, and  
no arrangements have been made for carrying out the necessary  
survey.

The Classing Committee had the case before them  
on Tuesday, 3rd instant, when they decided to give instructions  
for the vessel's character to be withdrawn from the Register  
Book and Three Dots (...) inserted in lieu thereof, indicating  
withdrawal of class at Owners' request.

5th October, 1933.
