

"TROCHISCUS."

Venn Severn Emergency Diesel Crankshaft.

Mr. Gillett of Fescol Ltd. telephoned to-day stating that the above crankshaft has arrived at their works, and he asked that arrangements should be made for the necessary inspection.

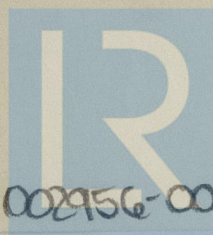

Mr. Orde has been informed accordingly and will arrange the inspection with Mr. Harrison of Shell Tankers.

No indication has been received from the Leith Surveyors to the effect that they have made an examination of the crankshaft and IT IS SUBMITTED they be requested to state whether, in fact, this has been done.

Mr. Orde telephoned later that he had received the Leith Surveyors certificate
